Shubham Bendkhale

Full Stack Web Developer

PROFESSIONAL SUMMARY

Versatile Full Stack Web Developer adept in the MERN stack with proficiency in HTML, CSS, and RESTful API design. Skilled in transforming project requirements into scalable solutions using React.js and Node.js. Capable of leveraging Generative AI and quick to learn new technologies, enhancing productivity and innovation.

PROJECTS

1. WatchoMovies | [🌐](#) | [🔗](#)

JavaScript | HTML5 | CSS3 | Git

- Developed a user-friendly web application for exploring movies using JavaScript, HTML5, and CSS3.
- Integrated OMDb API to access detailed movie information such as posters, cast, plot, and ratings.
- Implemented a search functionality to quickly find movies by title, year, and genre.
- Focused on creating an intuitive user interface with easy navigation and clean design.

2. Coursera | [🌐](#) | [🔗](#)

JavaScript | HTML5 | CSS3 | Git | Firebase | Axios

- Developed a seamless online learning platform with features such as user authentication and course management.
- Utilized JavaScript, HTML5, CSS3 for front-end development and Firebase for backend integration.
- Created responsive design to ensure compatibility across various devices.
- Played a high contributing role in a team of 3 to deliver a user-friendly and interactive learning experience.
