## Soft Skills

- Effective communication
- Problem-solving and analytical thinking
- Team collaboration
- Time management

## Projects

### WhistleSpace – Anonymous Feedback Platform (Solo Project)

Live Demo | [GitHub](#)

Tech Stack: MERN

- Developed a secure anonymous feedback system enabling organizations to collect honest feedback while preserving user identity.
- Built admin dashboard for moderation and management of feedback submissions.
- Designed responsive UI using React + TailwindCSS and structured backend with Node.js + Express, ensuring scalability and maintainability.

### Investment Portfolio Tracker (Group Project)

Live Demo | [GitHub](#)

Tech Stack: MERN

- Built a full-stack app to manage and monitor investment portfolios in real-time.
- Integrated multiple asset classes: stocks, commodities, forex, bonds, ETFs, cryptocurrencies.
- Implemented authentication with JWT and Bcrypt, and dynamic charts with Chart.js.
- Designed responsive UI using TailwindCSS and Framer Motion.

## Experience

### Support Executive, Pccenter technologies (PAN Application And Management Department)

Oct 2021 – Mar 2022

- worked for a client Nsdl
- Monitored PAAM servers to ensure uninterrupted website operations.
- Resolved technical issues and escalated server downtime cases.
- Collaborated with cross-functional teams to maintain 24/7 system uptime.
