SKILLS

Technical Skills: html, css, JavaScript, React, nodejs, php, redux, Express.js, MongoDB, mongoD
Soft Skills: Teamwork, Problem Solving, Effective Communication

EXPERIENCE

PCCenter Technologies | *Support Executive*
Oct 2021 - Mar 2022
- Worked for the NSDL client in PAAM (PAN Application Acceptance Module)
- Provided support to the business team by fetching data from servers.
- Monitored server performance to ensure continuous uptime.
- Maintained a server uptime of 99.20% during my tenure

PROJECTS

InvestFolio | *React, Express.js, RESTful APIs, Responsive Web Design, JavaScript, MongoDB, Node.js*
- 🚀 Deployed Link : https://investfolio.vercel.app/
- Github Repo : https://github.com/pratikzajam/Investfolio-Investment-Portfolio-Tracker
- Developed a full-stack application to manage and monitor investment portfolios in real-time.
- Supported multiple asset classes including stocks, commodities, forex, bonds, ETFs, and cryptocurrencies.
- Implemented secure authentication using JWT and Bcrypt.
- Integrated Chart.js for dynamic visualizations and portfolio analytics.
- Built responsive UI using TailwindCSS

Transcript.ai | *JavaScript, Redux, Node.js, Express.js, RESTful APIs*
- 🚀 Deployed Link : https://transcript-smoky.vercel.app/
- Github Repo : https://github.com/pratikzajam/transcript
- Developed a backend service using FastAPI to transcribe audio/video files into text using OpenAI's Whisper model.
- Integrated file upload capability with support for MP3, MP4, and other media formats.
- Implemented background task processing to handle transcription and email delivery asynchronously for optimal performance.

- Generated downloadable PDF reports of transcriptions using reportlab and delivered them via email using smtplib
- Used FFmpeg to ensure compatibility by converting uploaded media files to the required format.
- Managed secure environment setup using .env files and structured error handling for file processing.
- Video Explanantion Link: https://youtu.be/cRagWbAMxbA
